PROFESSIONAL SUMMARY

Strategic AI Consultant with a B.Tech in Artificial Intelligence & Data Science (2026), bridging technical AI capabilities with tangible business value. Experienced in evaluating AI feasibility, designing GenAI automated workflows, and translating complex machine learning models into actionable enterprise solutions. Proven leader with strong stakeholder communication, strategic problem-solving skills, and cross-functional team management.

TECHNICAL SKILLS & CORE COMPETENCIES

AI Consulting & Strategy	Generative AI Integration, Enterprise Solution Architecture, AI Feasibility Analysis, Business Process Automation
Technical Core	Python, GenAI & Prompt Engineering, Scikit-learn, Pandas, NLP Fundamentals, SQL, System Design basics
Strategic & Analytical	Data Storytelling, Stakeholder Communication, Requirement Gathering, Tech ROI Analysis, Problem Solving
Methodologies & Team	Agile/Scrum principles, Cross-functional Leadership, Team Collaboration, Time Management
Tools & Productivity	GitHub, VS Code, MS PowerPoint, Excel, Word, Interactive Presentation Tools

KEY TECHNICAL PROJECTS

Personal Portfolio Website *[HTML5, CSS3, JavaScript, Responsive Web Design, AI-Assisted Development]*

- Designed and developed a responsive personal portfolio website featuring professional experience, skills, projects, certifications, and interactive sections.
- Created the website using AI-assisted development based on my own ideas and design planning, while personally reviewing, testing, and refining its content and functionality.

Smart Resume Builder *[Python, Flask, NLP, AI Integration, HTML/CSS/JavaScript]*

- Developed an AI-powered resume builder that analyzes job descriptions, identifies required skills, and evaluates resume compatibility using ATS scoring.
- Implemented resume customization, AI-based summary enhancement, and PDF generation to help users create job-specific resumes.

GenAI Business Analytics & Strategy Simulation *[Forage, Generative AI, Strategic Analysis, Enterprise Workflows]*

- Designed AI-driven solution frameworks during the Forage GenAI Data Analytics simulation to streamline complex business reporting pipelines.
- Translated technical analytical findings into executive-level summary presentations, defining strategic implementation roadmaps and ROI impacts.

Decision-Support Climate Risk Analytics Model *[Python, Predictive Modeling, Decision Trees, Risk Analytics]*

- Developed a predictive weather forecasting model as a decision-support prototype for climate risk evaluation and resource allocation.

EDUCATION

Bachelor of Technology (B.Tech) — Artificial Intelligence & Data Science | **2022 – 2026**

Technocrats Institute of Technology, Bhopal — **CGPA: 6.53**

Intermediate (Class XII) | **2020 – 2022**

Karim City College, Jamshedpur — **Percentage: 74.80%**

Secondary (Class X) | **2019 – 2020**

Esteem High School — **Percentage: 66.20%**

CERTIFICATIONS & SPECIALIZED TRAINING

- **Forage — GenAI Powered Data Analytics Job Simulation:** Gained practical exposure to Generative AI workflows, prompt engineering, and business data analytics.
- **RamrajTech Technical Certification:** Completed structured practical training in programming, software engineering principles, and core computer science concepts.

LEADERSHIP & EXTRACURRICULAR ACHIEVEMENTS

- **21st ASISC Regional Basketball Tournament (2017):** Winner / Gold Champion — Bihar & Jharkhand Region
- **22nd ASISC Regional Basketball Tournament (2018):** Winner / Gold Champion — Bihar & Jharkhand Region
- **Tata Motors Inter School Basketball Tournament:** Winner / Gold Champion — Organized by Tata Motors Sports Department, Jamshedpur
- **JOSH Basketball Tournament (Jamshedpur Open School Hoop Fest):** Winner / Gold Champion
- **School Level Basketball Tournament:** Winner / Gold Champion
- **District Level Sports Representative:** Active player in Basketball (District Level), Volleyball, and Badminton; demonstrated athletic discipline, team leadership, and tactical execution under pressure.
